Volume of Business for Days Confined Mostly to Room Traders.

## DOMINANT INFLUENCE

Anticipation of Possible Decline in Red Metal Indulged.

Sept. 10.—There were few currents in the stock market today and the most obvious of these was the influence of the expectation of a possible decline in the price of red metal. This was the only time that the price of red metal was mentioned in the market.

The appearance of Market row Tuesday was below normal, even considering the low standard which has been set this season because of the lack of supplies. Buyers were plentiful along the row during the latter part of the afternoon. Wild Utah plums made their first appearance Tuesday. Other years this plum could be purchased at 30 cents a bushel, or even as low as 20 cents, but this year the plums bring 25 cents for three pounds. Crab apples sell at the handsome figure of 50 cents a bushel. Only a couple of bushels of crab apples have been offered on the row, and they are still being offered.

Tomatoes fluctuate in price from 90 cents to \$1.10 a bushel. The small yellow preserving tomato sells at \$1 a bushel, but when sold at a pound rate, it sells at four pounds for 25 cents. In contrast to this the red tomato, which sells at the same rate a bushel, retails at three pounds for 10 cents.

Among the vegetables, peppers, egg plant and cauliflower are the best appearance, and as a result sales are large in these three lines. Peppers sell at 10 cents a pound, and cauliflower and egg plant at 15 cents a pound. The ordinary pepper is green, but Tuesday a dealer had the red pepper for sale. The red pepper looks like a small tomato. It sells at 25 cents a pound. Cucumbers are gradually being lowered in price. Three cucumbers can now be purchased for 10 cents.

**New York Money.**  
NEW YORK, Sept. 10.—Close: Prime mercantile paper, 6 1/2 per cent. Sterling exchange weak, with actual business in bankers' bills at 4.85, 50¢ 4.85 to 4.85, 50¢ for demand and at 4.82 1/2 to 4.82 1/2 for sixty-day bills.

**Prices of Metals in New York Market.**  
Silver (bar), 68 1/2¢.  
Copper (bar), weak, 16 1/2¢ to 17 1/2¢.  
Lead, weak, 14 1/2¢ to 15 1/2¢.

**Manufacturing Company Establishes Office in This City.**  
The Kolok Manufacturing Company, a new company, has established an office and laboratory in the Fourth South street, in this city. The intention of the company is to manufacture the Kolok disinfectant for the purpose of destroying the growth of bacteria and promoting the growth of healthy bacteria.

Kolok is a registered trademark. It is the cause of nearly all the diseases of the hair. The results of modern science show that dandruff is a disease. The parasite grows the hair follicle between its cells and an antiseptic compound of sufficient strength to kill it is necessary to effect a cure. Kolok has been prepared to meet these conditions. It incorporates the results of the investigations and experiments of the greatest European specialists on the scalp. It is therefore the most effective and germicidal compound for the purpose and positively kills the dandruff cure. By its use the papillae and root of the hair are promoted the formative process of the minute vessels that enter with the bulb, and the hair is thereby promoted the new healthy hair.

For a full description of the Kolok disinfectant, see the excellent chapter on the treatment of the hair. The Kolok disinfectant is sold for advertising purposes free of charge to any advertiser.

## DUN'S REPORT OF BANK CLEARINGS FOR AUGUST.

Bank clearings for August are usually at the lowest point of the year, and this year is no exception, but there is evidence of no unusual depression in these bank returns. Total exchanges for August, as reported by R. G. Dwyer & Co., for all cities in the United States outside of New York City are \$4,733,228,065, an increase of 10.3 per cent. over the figures of last year, and of 20.9 per cent. over the corresponding month of 1905. New York City is again omitted from the total, because of the large loss in bank exchanges at that city due to the exceptionally heavy stock market operations in August a year ago, which swelled bank exchanges then to a very large total, while the comparative inactivity and low values in August this year reduced payments through the New York banks materially—hence the large loss in exchanges this year. At nearly all of the other leading cities there is an increase, denoting larger payments through the banks. There is marked improvement at some southern cities, compared with the losses that appeared in the early months of this year, but the most notable gains continue at the West, where trade is clearly very active. San Francisco reports a small loss, but at most other Pacific Coast centers there are continued heavy increases. Comparison is made below of bank exchanges by sections, covering three years; also, the average daily figures for the year to date:

	1907.	1906.	P. C.	1905.	P. C.
New England	\$719,478,847	\$710,146,816	+1.3	\$652,082,057	+10.2

## Santos Woman Makes Phenomenal Slide for Life.

Covers Clothes With Oil and Slides 200 Feet in Midst of Flames.

FER-DON SELLS OUT HIS WHOLE SUPPLY OF MEDICINE

Cannot Furnish a Single Drop Until His New Shipment Arrives Here from California.

Eight thousand people last night saw one of the most phenomenal feats ever attempted in Salt Lake City. It was the performance by the wife of the wonderful Santos, who is performing at the show grounds of the great Fer-Don. The brave little woman climbed to the top of a sixty-foot telephone pole, erected on the Fer-Don show grounds, and poured gasoline over her clothes. When she was thoroughly covered with the gasoline she grasped a wire which was suspended from the pole to the ground, about 200 feet distant, and applied a lighted match to her clothes. The flames shot up and covered her, and with a scream she slid down the wire, holding by her hands. The flames followed behind her for fully a yard. It was a most sensational and a most daring feat, and it completely dumfounded the great gathering about the place.

**Was Uninjured.**  
When she finished and appeared before the crowd with the flames extinguished a thundering cheer broke out on the air, which had been made perfectly silent at the sight of the great feat of daring. It is a trick which but very few performers in the world can be induced to undertake. Besides this feat, the husband of the dare devil woman did some wonderful feats in mid air, showing his hand at daring. The crowd of people stood by and looked on with bated breath.

**Band and Comedians Perform.**  
The Diamond Cluster band and the Fer-Don minstrels also did some great amusing. The jokes were new and good, and the music was catchy. Fer-Don made his usual speech to the crowd, but did not offer any of his medicine for sale. The reason for this was the fact that he had none to sell. The last bottle of his three carloads was disposed of Monday night, and until the fourth load arrives here he will be unable to sell even a bottle of it. He has been writing for several days, trying to locate the car, and he was informed yesterday that it would not be in Salt Lake City until this week. Hundreds of people have called on the great doctor personally and tried to get some of his compound, but he has told them all that he could not supply it now if offered \$1000 a bottle.

**A. T. Carlow Makes Statement.**  
Among the interested spectators at the show grounds last night was A. T. Carlow of Provo, the "Provo cripple," who was cured by the Boy Phenomenal of a case of rheumatism which had rendered him an invalid. He is on his way North to go to work on a farm with his brother-in-law. He was heard to exclaim during the lecture by Fer-Don that he would give \$10,000 to know what the medicine that cured him was made of. His case was one of great interest. It was one of the supreme tests of the Boy Phenomenal's medicine and science.

**Butcher Graham Also Present.**  
Mr. Graham, a butcher of this city, who was cured of a bad disease a while back, was also among the spectators. After the show he told Fer-Don that he had sent some of the great medical compound back to Philadelphia to a sick uncle, and he had received a letter from him stating that he had been cured of a serious attack of appendicitis.

The shows of the great Fer-Don, including the marvelous slide-for-life by Mrs. Santos, will be held nightly for a while, and great crowds are expected to be present. The programme is by far the best that can be seen anywhere in the city. To inform the great host of buyers of the Fer-Don medicine about the compound back to Philadelphia to a sick uncle, and he had received a letter from him stating that he had been cured of a serious attack of appendicitis.
